The Delta says: "Accounts from the rebel army at Port Hudson and elsewhere show a most wretched state of affairs among them, the men only being kept from mutiny by promises of peace within ninety days. Conscription among the rebels has become rather dangerous, as over twenty conscription officers have been shot while endeavoring to raise men." passable, although very rough. There is every indication that the enemy have very much weakened their forces on the opposite side of the river, relying upon the impossi-bility of any movement being made under existing circumstances. They no longer make their former display of tents by day and picket fires by night. There are also but few pickets to be seen on the opposite side. Last night, not withstanding the extreme cold, but few fires were visible, and below Fredericksburg, where heretofore they have been very numerous, only three were to be seen.
